SUBJECT: DoD Program on Remote Viewing (S/ORCON)

1. (S/ORCON) Enclosed you will find the minutes of a meeting held in my office on 24 August 1978, the primary intent of which was to initiate a coordinated DoD and Services effort to establish a program in remote viewing for intelligence purposes. Current requirements and funding are uncoordinated; however, a unified DoD/Services program would significantly improve the efficiency of the U.S. effort, reduce redundant research and make results available equally to the DoD and Services.

2. (S/ORCON) We ask that you review the minutes and provide us with your comments on the proposed make-up of the Advisory Committee and Working Group, funding levels you might be able to sustain over the next five years (beginning in FY 79), and any general remarks you wish to make on the research and applied aspects of remote viewing. Please send your comments to my office no later than 18 September 1978. Subsequent to the receipt of these comments and evaluation of everyone's responses, we will be in touch with you, or your designated representative, and inform you of the time and date of the next meeting and proposed agenda.

3. (U) I remind you of the extremely sensitive nature of the program and request that you maintain strict control of all documents transmitted to you.
